

Switzerland hosts Iran's booth in Fespo 2015

TEHRAN, Feb. 01 (MNA) – Iran is participating in the largest tourism exhibition in Switzerland from Jan. 30 to Feb. 2.

The ribbon to FESPO 2015 was cut on Friday by chief economic adviser of Iran embassy in Bern Mohsen Salarian, together with former Ambassador of Switzerland to Iran Philippe Welti.

During this four-day event, the officials of Iran-Switzerland friendship group together with the specialists of Riahi Travel will present the huge tourism potential of Iran to the Swiss travelers. Besides organized individuals and group tourism more and more Swiss citizens seek to explore Iran by themselves, in their own personal vehicles.

Most of the requests during this fair are about the country itself, the travel opportunities as well as general information about Iran and its people. During the FESPO, Iran's booth will strengthen the centuries-old ties between Switzerland and Iran.

The Fespo fair in Zurich offers its visitors information for holidays and travel. They have tips ready for adventurous, exciting, relaxing and unique holidays and are looking forward to advise attendees in person and in great detail.
